

PRODUCT DATA SHEET

R2721UA FUEL WATER SEPARATOR KIT

Fuel storage solution for storage tanks & stationary engine applications

PRODUCT SNAPSHOT

UNIVERSAL FUEL ASSEMBLY

Micron Rating:

R2721P - 20 micron (nominal)

Max Flow Rate:

40 litres per minute (max.)

Fuel Line Pressure:

Not to exceed 150kPa/21.8psi

Inlet & Outlet Ports:

1" BSP

Remote mounting head with 1" BSP inlet and outlet ports, plastic tool for replacement element change and filter element R2721P.

Purpose:

- Additional protection for diesel fuel delivery systems.
- Remove contaminant before it gets into your equipment fuel system.

Suitable for:

- Diesel Fuels

Applications:

- Low pressure / gravity fed bulk storage tanks in agricultural, construction and stationary engine applications.
- Ideal fuel storage solution.

R2721UA Inclusions

Product Image	Qty	Description
	1	Assembly: Cast alloy head, simple drain plug at the base of the plastic bowl
	1	Plastic Tool for replacement element change

Note: not all kit items are available for separate sale. R2721P available separately.
